ABOUT US

An Indian manufacturer of electric two-wheelers, Mantra E-Bike, was founded in 2018. Our company's mission is to create a better, cleaner and greener future for upcoming generations in addition to growing our consumer base.

Significant steps had to be taken for environment at this point, our director saw a clear awareness in consumer consciousness regarding the necessity for adopting cleaner transport alternative and he chose electric bikes as the principal source for specific transportation during his travel overseas. He then created a product that is eco-friendly.
